

NIFTY (Weekly)

The week that went by:

With no upgradation by S&P, kneejerk reaction has been seen in D-street as Nifty started the day with a gap down opening. However, Index recovered from lower level and ended the day with gains. Ahead of F&O expiry, Nifty remained in a narrow range. On Thursday i.e. on expiry day, Benchmark Indices started the day on a weak note with 30 points gap-down opening and continued to slide lower. In the mid-session, Index tried to recover to cross 10300 levels but due to declaration of trade deficit numbers, selling pressure intensified across the board. On the last day of the week, Nifty started the day on a strong note with 30-35 points gap-up opening but the higher levels did not last long as Index slipped from higher levels. Once again selling pressure in last session has been observed. Nifty50 ended the day at a low point of the day. Broader Market outperformed the Major Indices.
